

"My specialty is as a sculptor with over 25 years of experience. I would probably be most helpful as it applies to that discipline. In 2017 I was chosen to be a participant in a 6-month artist mentoring program that culminated in a Gallery showing. I believe that I can pass along some of the valuable information I received to others. Among the many the topics covered were Defining Success, Cultivating a Consistent Body of Work, Time Management, Organization, Pricing, Writing a Biography and Artist Statement and updating your Artist Resume. We also touched on Digital Portfolios and Artist Websites."
