Areas of mentorship:

“I would be glad to work with women who feel they need help using effective color temperature, eye-path and/or composition in their work. I would also be available to evaluate or give an opinion - and I call this an opinion only - on work that members have had rejected from shows. Often there is a simple fix to make the piece stronger and it simply takes a fresh eye.”

Mary Ann offers paid online “critiques” but has the program on hold for a while.
